COURT ADOPTS NEW RULES

Judges on Folice Perch Prescribe Regulations for Future Observance.

Loitering About the Building Pro hibited - Admonition to Policemen-Smoking Not Permitted."

The judges of the Police Court have adopted a set of rules intended to improve the general conditions in practice before the court, and their strict execution, the judges say, is required of all persons connected with or in attendance upon the proceedings.

The rules are as follows: 1st. Congregating or standing on the steps or about the entrance to the Police Court building, or in the passageways, is prohibited. Officers on duty at the Police Ceurt will be held accountable for the excution of this rule. Police officers having ases in charge, after transacting the necessary business in the office of the district attorney, will enter and remain in the attorney, will enter and remain in the proper court rooms until their cases have been disposed of, after which they will at once retire. Constant passing in and out of the court room is unnecessary, and the absence of officers from the court room when their cases are called causes delay, makes confusion and retards the business of the court.

2d. Witnesses summoned to attend court will be directed to seats in the court room or witness room, where they will remain, unless otherwise directed, until the case in which they have been summoned has been heard, when they will be excused, and then pass out to the street.

3d. Persons having no connection with cases coming before the court for hearing, who are frequently present out of idle curlosity, will not be allowed to enter the court rooms.

court rooms.

4. Smoking in any part of the building, either before the convening of the court, during its session or after the same closes, is positively forbidden, as is also the spitting of tobacco juice on the floors and registers.

The new rules will go into effect the first of next month, when Judge Scott will occupy the bench in the District branch of the court and Judge Kimball will hold the branch of the court for the trial of United States cases.

#### PLEA FOR DIVORCE.

harge That Mrs. Head Deserted Hus-

band for the Stage.
In a petition for divorce filed by Robert Head, through Attorney Campbell Car rington, naming Frances C. Head respond-ent, systematic cruelty and abuse on the part of the latter is alleged. The parties were married the 18th of September, 1890, and have one child.

Mr. Head sets forth in his petition that

for the list five years his wife has con-tinually used unkind and cruel language to him, threatening to take his life and assaulting him in different ways on more

assaulting him in different ways on more than thirty separate occasion. While living at 1412 S street, he avers, she assaulted him with a carving knife.

Mr. Head further says his wife repeatedly told him that she did not love him; that he ought to get a divorce and marry a woman with domestic tastes like his own. Mrs. Head stayed away from him for six months during 1808, says the petitioner, and the 23d of last September again deserted him, went to New York and became an actress. The 24th instant she returned to this city to see her child, and also told ed him, went to New York and became an actress. The 24th instant she returned to this city to see her child, and also told petitioner, he says, that out of sympathy for him she also wanted to see him, and advised him to marry some good woman, who would take care of his home and treat him as a husbland should be treated by his wife; that she did not care for him, and that they could never live together as man and wife should.

### BESIEGED BY OFFICE SEEKERS.

Gen. Wood Will Not Lack Material for Appointments.

A dispatch from Havana yesterday says: Gen Wood's office is besleged daily by a crowd of office-seekers from all parts of the island. The applicants want everything or anything, from cabinet secretary ships to janitorships.

Despite the fact that the governor general receives on the average 200 people every twenty-four hours, he manages to find time to pay unexpected early morning visits to the asylums and jails. Gen. Wood prefers to take the managers of such in-

prefers to take the managers of such institutions unprepared. Tomorrow he intends to inspect the leper hospital. Today he visited the Beneficiencia.

He does not intend to interfere in matters of public policy before the new year, when the new cabinet will be installed. It is generally reported by friends of the men named that Senor Villalon has been offered named that Senor Villalon has been offered a cabinet position. A similar statement is made concerning Senores Varona, Estvez and Tamayo. Senor Villalon is the present chief of public works at Santa Clara. Senor Varona was formerly editor of the Patria. Most of these appointments, if made, would meet with public approval, but Gen Wood declines to confirm or deny in any case, asserting that he will not give out information on the subject uatil the entire cabinet has been decided upon.

Cubans have been agreeably surprised by Gen. Wood's refusal to allow the municipality of Cardenas to grant private contracts. In a communication embodying his refusal, he said:

"No such contract will be recognized until after the municipalities have been elected, an event which is only a few months off. Then the will of the people will be known, and provided there is no interference with the prerogatives of the

#### TANNER NOT A CANDIDATE.

Illinois Governor Astonishes the Politicians by an Announcement.

At a gathering of Illinois republicans at Springfield last night for their annual love feast a bombshell was exploded by the declaration of Governor John R. Tanner that he was not a candidate for re-election.

This declaration was made at a special meeting of the governor's political friends called by himself. He said:

"I have not been a candidate for governor from the time that I entered office, and I am not now a candidate for re-elec-400 7th St. N. W., bet. D and E. Stion." With some frony, the governor con-

"My good, old-time friend, Senator Cul-"My good, old-time friend, Senator Cullom, has said at divers times that my renomination would not only endanger the electoral ticket, but result in the election of a democrat to succeed him in the United States Senate. It is not my desire that a democrat should succeed my friendship with Cullom. I am told my nomination would result in the overthrow of many of my friends locally, and in some instances I am led to believe that it is true. I love my party tirst, and my friends second. High above personal ambition and political ambition, I shall never interfere with republican success in Illinois or elsewhere."

Does not need sympathy.

He can be well and free from pain. He may need advice. Perhaps it is necessary for him to be told how to cure himself.

How simple it is to accomplish this, Londonderry Lithia Water will do it every time.

It does it in a scientific way, too. The salts that it contains, neuteralize, and dispel the poisons from the system that cause gout and rheumatism.
